

Bronson Alcott (奧爾科特 1799 -1888) said: "Education is that process by which thought is opened out of the soul, and, associated with outward things, is reflected back upon itself, and thus made conscious of its reality and shape".

「教育是把思想從靈魂解放出來，與外界事物聯繫，並返觀自省，從而洞察其真實和形態。」

*- Albert Einstein (1879-1955)*

“He (the time traveler) thought but cheerlessly of the Advancement of Mankind, and saw in the *growing pile of civilization only a foolish heaping* that must inevitably fall back upon and destroy its makers in the end. If that is so, it remains for us to live as though it were not so. But to me the future is still black and blank -is a vast ignorance, lit at a few casual places by the memory of his story. And I have by me, for my comfort, two strange white flowers -shriveled now, and brown and flat and brittle -to witness that even when mind and strength had gone, *gratitude and a mutual tenderness* still lived on in the heart of man.”
